When Austin Harvey (AMA#166) was planning his assault on the 2006 / 2007 AMA / TOYOTA TRUCKS 125C East Arenacross Championship, he knew that he'd need the strongest wheels available. He Chose WARP 9 WHEELS because he knew that he couldn't buy a Stronger or Better Looking Set of wheels anywhere. From the Custom Hubs to the Custom Colors, WARP 9 WHEELS delivered the performance that was necessary to clinch the championship. You don't have to spend more to get the best wheels available. Just ask Austin.

Austin Harvey, continued his streak in the 2007 AMA/Toyota Trucks Arenacross Series by wrapping up the series and the championship at the Bi-Lo Arena in Greenville.

Harvey had missed the Albany race due to a crash in practice that rendered his New York Motorcycle/Kawasaki Team Green sponsored bike Unridable. He came back into the series with a strong showing at the 1st Mariner Arena in Baltimore, Maryland two weeks later. Back on the road, Harvey took the win at the WesBanco Arena in Wheeling, West Virginia advancing him even higher in the points. His next race at the Wachovia Center in Wilkes-Barre,

Pennsylvania netted him a 2nd place finish as well as a win in the very tough 250C class. Riding his Kawasaki 250F against larger and more powerful 450cc machines, Harvey proved that skill can trump horsepower.

The final stop of the series was hosted in Greenville, South Carolina. Here, Harvey again showed that he was ready and anxious to take home the overall championship. Grabbing the Hole shot every race and leading nearly wire to wire, the #166 bike made short work of every other rider in the class. A cliffhanger finish arose when a lapped rider veered into Harvey's path on the last lap. Harvey maneuvered his Kawasaki in the air to avoid landing on the back marker and in doing so gave up the lead. Fortunately, his dominant position in the points allowed his 2nd place finish to carry him to the Championship Victory.
